## Corporate Overview

CeleraPro is a science and technology-oriented business seeking client challenges we can convert into innovative solutions. We apply broad technology expertise in support of our Federal Government, IC, DoD, State and Local Governments clients. Our solutions include acquisition support, information technology, PMP-certified project and program management, strategic and pursuit planning and implementation, short and long-term technology road mapping, Satellite and Terrestrial communications, Base Operations, Facilities Maintenance, Logistics, and interdisciplinary life cycle systems engineering.

CeleraPro focuses on the technical, operational, organizational, and process related challenges of our clients. We examine problems through multiple perspectives to identify innovative methods and provide solutions offering long-term, consistent benefits improving efficiency and efficacy of our clients in support of our clients' prestigious reputations. We invest in our people and have cultivated an environment to attract and train highly experienced staff. We also have the privilege of being well connected within the contractor community and leverage those relationships to provide the highest quality support to our customers through teaming and partnering. Our network of hundreds of subject matter experts (SMEs), technology partners, and process experts, provides CeleraPro with a unique catalogue of expertise we apply to exceed client requirements. Celera (Speed) and Pro (Professional) combine to meet the technology needs of our clients, quickly and efficiently.

CeleraPro services and solutions ultimately make our client's organizations, enterprises, and the world at large more secure, connected, and efficient.
